

Cybersecurity Connections

The Cybersecurity Connections program helps internationally trained IT professionals find work in their sector in Canada. Participants gain a better understanding of Canadian workplace culture, Cybersecurity concepts, Canadian industry best practices for information security and key security concepts.

“The Cybersecurity Connections team always went the ‘extra mile’ and provided very valuable insights and advice. I appreciated the resume workshops, the contemporary curriculum and the mentoring sessions. ACCES helped me connect with industry experts and I am now employed at TD in a senior position with great benefits and great work-life balance.”
