

*Are you new to Canada?  
Are you looking for a job in the  
IT sector?  
**ACCES Employment can help!***

# Cybersecurity Connections

Cybersecurity Connections helps internationally-trained IT professionals to find work in Canada, specifically in the emerging field of cybersecurity. Delivered in partnership with Seneca College, the program provides an overview to the Cybersecurity field in Canada. Topics include:

- Information Security Principles
- Ethical Hacking
- Windows Security
- Network Security
- Mobile Device Security

In addition to industry-specific academic training, Cybersecurity Connections also provides you with knowledge about Canadian workplace culture, connections to employers, coaching on job search and mentorship.

## **PROGRAM COMPONENTS**

- Academic training from a recognized educational institute
- One on one support from an employment consultant
- Job search & job development support including resume and interview preparation
- Referral to job openings and connections to employers
- Access to mentors and mentoring events
- Business and workplace communication training in a Canadian context
- Job retention support

# Why should you choose ACCES Employment?

ACCES Employment programs and services are highly specialized, offering sector-specific training designed to help new Canadians find work in their field. Each program is offered in close consultation with leading employers and academic partners and is designed to enhance (and not duplicate) your existing education.

Our first priority is to help you find full-time, permanent employment that reflects your experience. Over 80 percent of our participants find employment in their field.

## Program Fees:

- There are no fees associated with this program

## Cybersecurity Connections

*According to the Information and Communications Technology Council, more than 1.5 million people are expected to be needed around the world to work in cybersecurity by 2020.*
