

# Electrical Engineering Connections

Electrical Engineering Connections is an Ontario-wide, online, bridge-to-work program designed to support internationally trained electrical engineering professionals with their integration into the Canadian labour market. This online program is delivered in partnership with Humber College and funded by the Government of Ontario.

“ The program provided me with an understanding of the electrical engineering labour market, customized job application and interview preparation. Technical modules allowed me to gain knowledge of the Canadian electrical code and Ontario Electrical Safety Code. ”
