

## EO Employment Services Through ODSP

For more than three decades, ACCES Employment has been empowering job seekers from diverse backgrounds, with a special focus on those encountering employment hurdles, to discover not just jobs, but meaningful careers.

Through our EO Employment Services, we extend specialized support to a wide range of individuals, including Persons With Disabilities (PWDs), tailoring our approach to nurture their journey to success.

Within our EO suite, we offer

Dedicated services for job seekers on ODSP

Leveraging our membership in the Ontario Disability Employment Network (ODEN)

Partnership with MentorAbility, an initiative spearheaded by the Canadian Association for Supported Employment

This program bridges the divide between employers and individuals with disabilities, providing transformative, short-term mentoring opportunities.

Our ACCES team is not only highly trained but deeply committed to disability awareness, employing advanced job development strategies, and championing innovative techniques like job carving and customization. This ensures that each candidate's potential is not just recognized but maximized. We don't stop at job placement; we excel in providing specialized guidance for long-term employment retention.
