

# 2024 WORLD OF DIFFERENCE

## EMPLOYMENT SERVICES ACCESSIBLE FOR ALL

Many people in our city need access to job search support. By going mobile, and directly into communities, we are providing free employment services to improve integration and economic participation for those who need it most.

### What are the challenges?

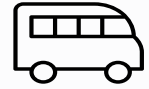

Lack of awareness

Mental and physical  
barriers

Lack of trust

Transportation  
costs

This year, through the generosity of campaign supporters and donors, ACCES will raise \$300,000 to bring employment services to the hardest-to-reach and most vulnerable populations.

### These strategies will help us reach more jobseekers:

#### ACCES Street Fleet

A unique and innovative mobile employment service that brings support directly to jobseekers.

#### Pop-up Connections

Portable pop-up events that will connect jobseekers with employers at an off-site location.

#### Shared Support

Collaboration with community partners and service providers to create a network of wrap-around supports.
