

Connecting to Careers in Smart Manufacturing

Build the technical skills, industry credentials and employer connections needed to pursue a career in smart manufacturing.

This free 14-week hybrid program combines industry-recognized training, practical experience and employment support to help participants prepare for opportunities in manufacturing and related sectors.

Program Benefits

- Industry-recognized technical training delivered by Excellence in Manufacturing Consortium (EMC)
- Five stackable micro-credentials aligned with employer needs
- Practical experience through collaborative industry projects and employer-led activities
- Direct connections to employers and mentorship opportunities
- Job-search, workplace communication and interview support
- Ongoing job-retention support after employment

Training Includes

- Digital Manufacturing and Industry 4.0 Foundations
- Robotics and Automation Integration
- 3D Printing for Industry
- Data Analytics and Cybersecurity
- Lean Manufacturing
- Futureproofing
- Job Search and Workplace Communications

Eligibility

- Be legally eligible to work in Canada
- Be committed to completing the 14-week program and pursuing employment in manufacturing
- Be a permanent resident, Canadian citizen, convention refugee or refugee claimant with a valid one-year work permit
- Have strong verbal and written English communication skills, equivalent to Canadian Language Benchmark 7
