Connecting to Nuclear Jobs in Ontario

Discover exciting career opportunities in Ontario's growing nuclear industry through the Connecting to Nuclear Jobs in Ontario program. Developed in collaboration with Bruce Power and Georgian College, this free, 8-week online program provides the industry knowledge, practical skills and connections to help jobseekers pursue careers in the sector.

Nuclear energy generates more than 50% of Ontario's electricity, making it the foundation of one of the cleanest grids in North America. As Ontario invests in nuclear refurbishments and new small modular reactor projects, the sector is creating high-quality jobs in skilled trades, engineering, technology, and operations while helping meet growing energy demand.

Program Benefits

- Gain insight into Ontario's nuclear energy sector and connect with Bruce Power and other industry employers
- Receive free training from Georgian College and earn a micro-certificate in Project Controls and Leadership Fundamentals upon successful completion
- Build skills in project controls, leadership, and communication, including strategic planning, scheduling, estimation, risk management, and data management
- Learn about nuclear sector codes and regulations, health and safety standards, and renewable energy fundamentals
- Access the IBM SkillsBuild learning platform for complementary training
- Receive personalized employment support, including job-search preparation, sector-specific coaching and job-retention support
- Learn about the Bruce Power site and connect with industry professionals
